

Help a child...

...ignite a Life

If you could do one thing that could have a profound effect on the world, what would you do?

If there was something you could do that would significantly improve someone's life, would you do it?

More Info*

Since 1984 we have been working to improve the lives of children living in the sugar cane fields.

We have built many homes and our current project is to build 50 new homes in Batey 50.

We have rebuilt more than 25 churches and the program continues with three now under construction.

We have built a hospital to care for the poorest in the region. We also maintain mobile medical clinics that visit over 125 communities annually bringing health care to those that would otherwise be unserved.

Our first school was opened in 1994 in San Pedro.

Children begin their education in grades kindergarten through grade 4.

They are promoted to grades 5 through 6 as their skills improve.

A Middle School prepares them for High School studies.

High School prepares them for the state university system. All our schools are fully accredited by the national education council,

Those that graduate from High School and wish to continue their education receive financial aid from US sponsors.

and they return home as . . .

Teachers

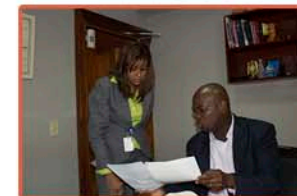

Dentists

Nurses

Doctors and Administrators

Donations can be made to GSMC, 800 Main ST, Suite 126 Holden, MA 01520. GSMC is a public 501(c) (3) charity.
